

WORK TO SEE ANOTHER DAY Protect Your Eyes!!!!

Wear Proper Eye Protection When Exposed to the Following Hazards:

- **IMPACT:** Flying objects such as large chips, fragments, particles, sand, and dirt created when using or being around hand and power tools and equipment (hammers, drills, saws, grinders, etc).
 - **HEAT:** Anything emitting extreme heat such as furnace operations, pouring, casting, hot dipping, welding, etc.
 - **CHEMICAL:** Splash, fumes, vapors, and irritating mists from acid and chemical handling, degreasing, plating, and working with blood.
 - **DUST:** Created from woodworking, buffing, and general dusty conditions.
- OPTICAL RADIATION:** Radiant energy, glare, and intense light created by welding, torch cutting, brazing, soldering, and laser work.
