

# GASOLINE SAFETY

- Never use or store around an open flame, pilot lights, portable heaters or other ignition sources!
- Never smoke or permit smoking where being dispensed or stored!
- Never use to start, restart or accelerate a fire!
- Never refill gasoline engines when hot!
- Never use as a hand cleaner!
- Never use as a solvent to clean things!
- Always store in proper safety cans that are constructed of metal with self-closing lids!
- Never store in glass or plastic bottle containers!
- Dispense in a well ventilated area!
- Remove clothing that has been soaked by gasoline!
- Limit the amount in the workplace!

**1 gallon of gasoline= 20 sticks of dynamite!**

**An ignited gasoline fireball can reach temperatures of 15,000 degrees F.**

Rockwood Casualty Insurance Company (Rockwood) may provide safety management services to its insureds in order to reduce the risk of loss that may lead to insurance claims. The information and advice we provide is not intended to include all possible safety measures and controls. Rockwood does not warrant that losses and claims will be avoided or mitigated if our recommendations are followed. The safety management services we provide do not relieve the insured of its own duties and obligations with regard to safety matters, nor does Rockwood guarantee to the insured or others that the insured's property and/or operations are safe, healthful, or in compliance with applicable laws, regulations or standards. The insured remains responsible for its own operations, safety practices and procedures and should consult with legal counsel and safety professionals, of its own choosing, as it deems appropriate.
