

# TRUCK CLEANING SAFETY

- Always read manufacturer instructions before using any cleaning chemicals.
- Use only in accordance with chemical manufacturer instructions.
- Never exceed suggested application amount—more is not always better. Allow time for the chemical to work on the surface.
- Always use in a well ventilated area.
- Avoid mixing cleaning chemicals with other cleaning chemicals. Toxic vapors may be produced.
- Always wear eye protection, hand protection and other manufacturer specific personal protective equipment.
- Wash your hands after you are done using the cleaning chemicals.

Rockwood Casualty Insurance Company (Rockwood) may provide safety management services to its insureds in order to reduce the risk of loss that may lead to insurance claims. The information and advice we provide is not intended to include all possible safety measures and controls. Rockwood does not warrant that losses and claims will be avoided or mitigated if our recommendations are followed. The safety management services we provide do not relieve the insured of its own duties and obligations with regard to safety matters, nor does Rockwood guarantee to the insured or others that the insured's property and/or operations are safe, healthful, or in compliance with applicable laws, regulations or standards. The insured remains responsible for its own operations, safety practices and procedures and should consult with legal counsel and safety professionals, of its own choosing, as it deems appropriate.
