

Toolbox Safety Talks

Pay Attention

47

- 1) What are the consequences involved with not paying attention?
 - a. Personal injury
 - b. Injuries to others
 - c. Property damage

- 2) Why pay attention?
 - a. Being aware of the situation surrounding us can help assess what actions should be taken to avoid an accident
 - b. Staying focused on the job
 - c. Strive to clear your mind and concentrate on the task at hand throughout the work day, every day
 - d. Accidents do more than harm ourselves. They also harm our families and our co-workers
 - e. Work requires total team effort and trust that everyone is focused and doing what is right and safe for all concerned

There are too many other people depending on us to work safely: our families, our co-workers, our friends.

- 3) Who has been in an accident or had a near miss due to not paying attention?
- 4) Give me examples of how not paying attention can affect you, your coworkers, your company, and your family.
- 5) Is there a way to improve any of our jobs to make them less tedious, repetitive, or boring so it's easier to maintain your attention?
- 6) What affects our attention?

Rockwood Casualty Insurance Company (Rockwood) may provide safety management services to its insureds in order to reduce the risk of loss that may lead to insurance claims. The information and advice we provide is not intended to include all possible safety measures and controls. Rockwood does not warrant that losses and claims will be avoided or mitigated if our recommendations are followed. The safety management services we provide do not relieve the insured of its own duties and obligations with regard to safety matters, nor does Rockwood guarantee to the insured or others that the insured's property and/or operations are safe, healthful, or in compliance with applicable laws, regulations or standards. The insured remains responsible for its own operations, safety practices and procedures and should consult with legal counsel and safety professionals, of its own choosing, as it deems appropriate.

Toolbox Safety Talks

Pay Attention

Make Time for Safety, Everyday! – Yes, production is important, *but the focus must be on Safe Production!* Keep that in the back of your mind. Don't take risky chances and stay out of harm's way. Nobody goes to work thinking 'I'm going to get hurt or killed on the job today!' But every day 15,000-17,000 workers suffer disabling injuries on the job and another 11-17 are killed. ***What are you doing to make sure it doesn't happen on your shift?***

Keep stoking the fire; we can't let the 'Safety Train' run out of steam!
