# Toolbox Safety Talks

## Eye Protection

- 1) What are the hazards/injuries involved with NOT wearing eye protection?
  - a. Eye injuries leading to loss of vision
  - b. Setting a bad example
- 2) What hazards should be recognized?
  - a. Job site requirements
  - b. Flying debris
  - c. Chemical mists and splashing
- 3) What safe practices should be used when wearing eye protection?
  - a. You should never enter an area where eye protection is required unless wearing such
  - b. Ensure eye protection provided fits you comfortably and is suitable for the job
  - c. Look after any eye protection provided. Keep them clean and report any damaged, lost or unserviceable eye protection immediately
  - d. Even if not carrying out a task with an obvious eye hazard, you may be at risk from others nearby
  - e. Eye protection only works when worn over the eyes – it is useless worn over the head or around the neck
  - f. Never watch any welding processes unless wearing suitable eye protection

### **EYE PROTECTION IS REPLACEABLE – EYES ARE NOT!**

- 4) Does everyone here have eye protection?
- 5) How do we get a new pair of safety glasses if we lose or break ours?
- 6) Is there anywhere on site that eye protection should be mandatory where it currently is not?
- 7) When do we wear goggles and when do we wear safety glasses?
- 8) Has anyone had an incident or near miss with their eyes?
- 9) Are there any other safety issues that you would like to discuss?

Rockwood Casualty Insurance Company (Rockwood) may provide safety management services to its insureds in order to reduce the risk of loss that may lead to insurance claims. The information and advice we provide is not intended to include all possible safety measures and controls. Rockwood does not warrant that losses and claims will be avoided or mitigated if our recommendations are followed. The safety management services we provide do not relieve the insured of its own duties and obligations with regard to safety matters, nor does Rockwood guarantee to the insured or others that the insured's property and/or operations are safe, healthful, or in compliance with applicable laws, regulations or standards. The insured remains responsible for its own operations, safety practices and procedures and should consult with legal counsel and safety professionals, of its own choosing, as it deems appropriate.
